

OREGON AVERAGE ANNUAL MAXIMUM TEMPERATURE 1991-2020

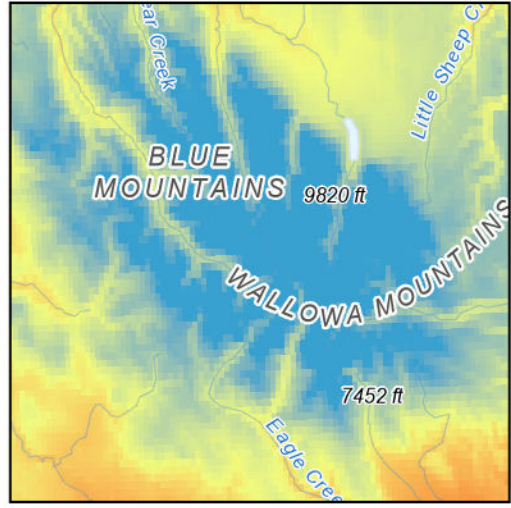

The west side of the Cascade Mountain Range experiences hotter temperatures than the east.

Medford has the hottest average temperature over the 30-year time period.

Mean Temperature
Degrees (C)

The Mountain ranges that are known for more precipitation or snowfall have the lowest average temperature.

This data was created at Oregon State University by the PRISM staff.

Contains spatially gridded average daily maximum temperature at 800m grid cell resolution.
